If we let the ice cream go?

5:49 PM

Yes, just go on vacation. Enjoy
yourself and it all goes away.

You guys cannot approach
████████ with that "deal" the
sexual harassment is not a
village issue at this point, but
having a village official go and
talk to her and try to
negotiate a deal via the sexual
harassment. Not being more
widely reported that makes it
a much bigger issue than it is.

This will fall apart, and ██████████
will make it public that the
village tried to cover it up. It's
better to confront it head on.

That's true
